

ABSTRACT

ARMED CONFLICT & VIOLENCE ALL OVER THE WORLD

**** GAURAV KUMAR ARYA¹ & PRIYAM GUPTA²**

International Humanitarian law is the main features of the ICRC where they guard the peoples as children, women, and Men who are kept in the places at the time of war and give precaution to the injured soldiers who wouldn't participate anymore. There are many of Armed Conflict cases where yet to be not solved and continuous in the process, Moreover the Cases of Armed conflict and violation of Geneva was terms under the Humanitarian Law which give the extension of remedies to do not torture by any physical and mental cruelty. In the IHR there is International armed conflict and Non- International Armed conflict which determine by their means of Conflict with the State and other countries The Humanitarian law was drive from various sources of Geneva and it's all started by 1864. There are several countries who are powerful then the other countries by the social, economic and military power but they do not have the power to dominate the other countries it show how the international humanitarian law works under the pipeline of the various countries to maintain peace & gave a rule of fair in the War However by the Time of the Evolution the Warfare also turn dynamic change where it can now do the War by the Cybercrime and Autonomous weapons systems.
